

# Puzzle 5

Condylarth Puzzle

23 July 2006

## **Abstract**

Returning for a brief foray in information theory, the author presents new and improved methods to transmit non-audio information over telephone lines so as to bring down the load on telecom infrastructure.

If you think you need to call someone, please come talk to us first. Also, please be careful not to dial 911!

For this puzzle, please listen to the included CD.
